Sukarame, Bandar Lampung

Analytical and adaptable Informatics Engineering graduate with internship experience at Indonesia's Ministry of National Development Planning (Bappenas). Proven ability in project coordination, business process analysis, data-driven decision making, and cross-functional collaboration through academic, organizational, and professional experiences. Passionate about continuous learning, leadership development, and delivering customer-focused business solutions in dynamic environments.

PROFESSIONAL EXPERIENCE

Ministry of National Development Planning (Bappenas) - Jakarta, Indonesia

Jun 2025 - Jul 2025

Project Management & Digital Transformation Intern

Responsibilities & Achievements

- Coordinated a cross-functional team of 4 members during the development of SIMONIKA 3.0, ensuring project milestones were delivered according to schedule.
- Collaborated with cross-functional stakeholders to analyze business requirements and support digital transformation initiatives.
- Produced 20+ project documents, including system specifications and User Acceptance Testing (UAT) documentation, improving project traceability.
- Analyzed operational data using Microsoft Excel to generate project monitoring reports, enabling the team to track progress and support timely decision-making.
- Collaborated using Agile methodologies through Jira and GitLab to improve communication and workflow transparency.
- Supported software development throughout the Software Development Life Cycle (SDLC) while ensuring alignment with project objectives.

Institut Teknologi Sumatera (ITERA) - Lampung Selatan, Indonesia

Aug 2025 - Dec 2025

Teaching Assistant - Information Systems

- Mentored 30+ undergraduate students during laboratory sessions, improving understanding of programming concepts and practical assignments.
- Guided students during laboratory sessions and practical assignments.
- Facilitated discussions to improve students' analytical thinking and problem-solving skills.
- Provided academic mentoring while ensuring effective communication and collaborative learning.

EDUCATION LEVEL

Institut Teknologi Sumatera (ITERA) - Lampung Selatan, Indonesia

Mar 2022 - Jun 2026

Bachelor of Informatics Engineering, 3.46/4.00

- Relevant Coursework: Database Systems, Software Engineering, Information Systems, Project Management, Business Process Analysis, Data Analytics.

STUDENT ORGANIZATION EXPERIENCE

ITERA Dhirasena Buddhist Student Association (KMB) - Lampung Selatan

Feb 2024 - Feb 2026

Head of Spiritual Affairs Division (Feb 2025 – Feb 2026) | Division Staff (Feb 2024 – Feb 2025)

- Lead and coordinate the team in designing, scheduling, and executing annual work programs for the spiritual, academic, and social development of KMB ITERA members.
- Manage the smooth operation of routine activities and major events, ensuring effective cross-divisional coordination according to established timelines.

ITERA Informatics Student Association (HMIF) - Lampung Selatan

Feb 2024 - Feb 2025

Academic and Scholarship Division Staff

- Serve as the primary facilitator in managing and distributing strategic information regarding academic opportunities and scholarships to all ITERA Informatics students.
- Design and implement support programs aligned with the Three Pillars of Higher Education (*Tridharma*) to help enhance students' technical competencies and academic success rates.

SKILLS, ACHIEVEMENTS & OTHER EXPERIENCE

- **SIMONIKA 3.0 Digital Transformation Project (Bappenas)** 🏆 (2025): Supported digital transformation initiatives by contributing to system development, project documentation, requirement analysis, and stakeholder coordination.
- **Pharmacy Inventory Information System** 🏆 (2026): Designed and developed a web-based inventory management system with robust reporting features to streamline stock monitoring and enable data-driven operational decisions.
- **Rice Production Dashboard (Tableau)** 🏆 (2025): Designed an interactive Tableau dashboard that transforms raw datasets into actionable insights on national rice production trends through comprehensive data cleaning and reporting.
- **Cooking Ingredient Recommendation System (Bachelor Thesis)** 🏆 (2026): Developed a Content-Based Filtering recommendation system to identify substitute cooking ingredients based on nutritional similarity, utilizing feature engineering, data preprocessing, similarity analysis, and MAE/RMSE performance evaluations.
- **CORE COMPETENCIES**: • Analytical Thinking • Data Analysis • Problem Solving • Process Improvement • Project Coordination • Cross-functional Collaboration • Stakeholder Management • Operational Excellence • Communication • Leadership • Adaptability
- **Business & Analytics**: Microsoft Excel, Microsoft Word, Microsoft PowerPoint, Tableau, Google Workspace.
- **Project Management**: Jira, GitLab, SDLC, Agile Methodology.
- **Programming**: PHP, Python, JavaScript, HTML, CSS.
- **Database**: MySQL
- **Business Knowledge**: Business Process Analysis, Requirement Analysis, Documentation, Reporting, Data Visualization.
- **Best Participant – Webinar Content For Living** 🏆 (2026): Awarded the title of "Best Participant" in recognition of proactive participation, consistent learning, and strategic capability in understanding the growth of the digital content ecosystem (Blockchain-validated certification by PT BMG Capital Technology).
- **Achievements** 🏆 (2025): Obtained a certificate of participation for the Studium Generale event titled "AI for Higher Education: Latest AI Technology from Google."
- **Achievements** 🏆 (2025): Received a certificate recognizing service as a member of the HMIF ITERA "Sinergi" Cabinet (2024/2025 term) in the role of Academic and Scholarship Staff.
- **Achievements** 🏆 (2025): Facilitated Information Systems coursework by acting as a substitute instructor, conducting objective academic evaluations, and organizing supplementary tutoring sessions to enhance student comprehension.
- **Achievements** 🏆 (2025): Led the development of the SIMONIKA real-time ICT infrastructure monitoring application as Project Manager and Backend Developer at Bappenas, significantly enhancing the ministry's reporting efficiency.
- **Interest**: Supply Chain Management, Business Operations, Process Improvement, Data Analytics, Business Intelligence, Digital Transformation.
