Sukrame, Bandar Lampung

Informatics Engineering graduate with internship experience at Bappenas in project coordination and digital transformation. Experienced in business requirements analysis, project documentation, UAT, data analysis, and cross-functional collaboration using Agile and SDLC practices. Proficient in Microsoft Excel, SQL/MySQL, Jira, GitLab, and Tableau, with strong analytical, problem-solving, and communication skills.

PROFESSIONAL EXPERIENCE

Ministry of National Development Planning (Bappenas) - Jakarta, Indonesia

Jun 2025 - Jul 2025

Project Management & Digital Transformation Intern

Responsibilities & Achievements

- Coordinated a 4-member cross-functional team during SIMONIKA 3.0 development, tracking project milestones and deliverables to support timely execution.
- Analyzed business requirements and collaborated with cross-functional stakeholders to support system development and digital transformation initiatives.
- Produced 20+ project documents, including system specifications and UAT documentation, improving project traceability and supporting project delivery.
- Analyzed operational data using Microsoft Excel to prepare project monitoring reports and support data-driven decision-making.
- Applied Agile practices using Jira and GitLab to track project activities, improve collaboration, and maintain workflow transparency.
- Supported activities across the Software Development Life Cycle (SDLC), ensuring deliverables remained aligned with project requirements and objectives.

Institut Teknologi Sumatera (ITERA) - Lampung Selatan, Indonesia

Aug 2025 - Dec 2025

Teaching Assistant - Information Systems

- Mentored 30+ undergraduate students during Information Systems laboratory sessions, supporting programming and practical assignments.
- Facilitated discussions and provided technical guidance to strengthen students' analytical and problem-solving skills.
- Communicated technical concepts clearly while managing diverse student needs and maintaining an effective learning environment.

EDUCATION LEVEL

Institut Teknologi Sumatera (ITERA) - Lampung Selatan, Indonesia

Mar 2022 - Jun 2026

Bachelor of Informatics Engineering, 3.46/4.00

- Relevant Coursework: Database Systems, Software Engineering, Information Systems, Project Management, Business Process Analysis, Data Analytics.

STUDENT ORGANIZATION EXPERIENCE

ITERA Dhirasena Buddhist Student Association (KMB) - Lampung Selatan

Feb 2024 - Feb 2026

Head of Spiritual Affairs Division (Feb 2025 – Feb 2026) | Division Staff (Feb 2024 – Feb 2025)

- Led and coordinated division programs, managing team responsibilities, schedules, and cross-divisional collaboration to ensure timely execution of annual activities.
- Coordinated routine activities and major events while ensuring alignment with organizational objectives and timelines.

ITERA Informatics Student Association (HMIF) - Lampung Selatan

Feb 2024 - Feb 2025

Academic and Scholarship Division Staff

- Serve as the primary facilitator in managing and distributing strategic information regarding academic opportunities and scholarships to all ITERA Informatics students.
- Design and implement support programs aligned with the Three Pillars of Higher Education (*Tridharma*) to help enhance students' technical competencies and academic success rates.

SKILLS, ACHIEVEMENTS & OTHER EXPERIENCE

- SIMONIKA 3.0 Digital Transformation Project (Bappenas)** 🏆 (2025): Supported system development, requirement analysis, project documentation, UAT, and stakeholder coordination.
- Pharmacy Inventory Information System** 🏆 (2026): Developed a web-based inventory management system with reporting features

to support stock monitoring and operational decision-making.

- **Rice Production Dashboard (Tableau)** 📍 (2025): Developed an interactive dashboard to visualize national rice production trends through data cleaning, analysis, and visualization.
- **Cooking Ingredient Recommendation System (Bachelor Thesis)** 📍 (2026): Developed a Content-Based Filtering recommendation system using nutritional features and similarity analysis, evaluated using MAE and RMSE.
- **Business Analysis** : Business Requirements Analysis, Business Process Analysis, Requirement Analysis, UAT, Technical Documentation.
- **Project Management**: Project Coordination, Agile Methodology, SDLC, Jira, GitLab.
- **Data & Technology**: Microsoft Excel, SQL / MySQL, Tableau, Python, PHP.
- **Professional Skills**: • Analytical Thinking • Problem Solving • Stakeholder Management • Communication • Leadership
- **Achievements** 📍 (2025): Received a certificate recognizing service as a member of the HMIF ITERA "Sinergi" Cabinet (2024/2025 term) in the role of Academic and Scholarship Staff.
- **Achievements** 📍 (2025): Facilitated Information Systems coursework by acting as a substitute instructor, conducting objective academic evaluations, and organizing supplementary tutoring sessions to enhance student comprehension.
- **Achievements** 📍 (2025): Led the development of the SIMONIKA real-time ICT infrastructure monitoring application as Project Manager and Backend Developer at Bappenas, significantly enhancing the ministry's reporting efficiency.
